COMPANY WITH PASSIVE INCOME**

WHAT IS AFFILIATE MARKETING?

Affiliate marketing is when you promote products from a company and receive a portion of the money each time someone makes a purchase through your recommendation. It's like being a product ambassador and earning commissions for every sale you help facilitate.

WHAT ARE PASSIVE INCOME?

Passive income is earnings that are generated with an initial effort but continue to flow with little or no additional effort over time. These income sources originate from investments, assets, or activities that continue to generate money automatically after the initial action.
